Subject: CI Replacement Program (3 Year Plan)

CI Replacement
Program Feb 14 ...

Bob:

Further to your email last week regarding an updated list of the 3 year CI Replacement Program please find attached a current version as of today. Please be aware this list differs from any discussion Ron and I have had during the last week as the following notes make clear:

Pine St, Gardner

- This project is as requested

Summer St, Gardner

- This section has been increased in length

Oak St, Gardner

- This section has been increased in length

Columbus St, Fitchburg

- This project is as requested

Water St, Fitchburg

- This section has been increased in length and includes CI abandonment in Abbott Av and Old Leominster Rd
- This project still requires detailed analysis to ensure the abandonment of the pipe in Water St does not adversely affect system pressures.

Wanoosnoc Rd, Fitchburg

- Deferred to 2002

Boutelle St, Fitchburg

- Deferred to 2002

Regards

Roger A Barham
